TERRAHAWKS
MAJOR NEW TV SERIES
ON ITV SOON!!

GERRY ANDERSON

& CHRISTOPHER BURRS

Terrahawks®
is the most thrilling yet of
space adventure games – based on a
new, enthralling TV series due on your
TV screens in October.

On her way to destroy the glittering planet Earth malevolent Android Zeldia from Alpha Centauri has an awesome battle campaign planned – and her first target is the inter-galactically renowned HAWKNEST, HQ of a legendary band of elite fighters, the TERRAHAWKS.

You are the Terrahawk on duty when the terrifying emergency flash is received warning of her imminent attack. Then no fewer than 4 battle phases result from Zeldia's increasing fury as she encounters your bravery and skill. Phase 1 – pits the rockets of 8 flying saucers from Zeldia's mother ship against the high-energy laser beam turret you control with your handset from the Hawknest. Score 2 for taking out a rocket, 5 for a flying saucer. Phase 2 – brings anti-matter mines to back up the rockets against you. They

can track your turret so are tough to knock out. If you get one, score 4. Phase 3 – you've humiliated Zeldia! Her furious face appears on your screen as it does between each battle phase – and she adds her dreaded green annihilators to the fray. If you don't get them on descent they impact Earth anywhere – and then slide towards the Hawknest. Score 8 for a hit.

Terrahawks® death-defying games continue until your turret is destroyed. And then another invasion begins. The highest score is always recorded on screen, and you can enter the current champion's name through the unique Philips videogame keyboard.

Terrahawks® is definitely not for the faint-hearted. It's at your dealer soon priced around £27.95.

one of the all-time
great space games!

You're situated in the middle of the TV screen, surrounded by a protective energised forcefield. Aboard your ship all is peaceful—until suddenly asteroids and alien saucers appear out of nowhere. You must avoid or destroy them—or get blasted out of the galaxy! But your problems don't end here—some of those asteroids are magnetic and attracted by your ship, and every time you fire your laser at the deadly saucers your energy field is reduced making you even more vulnerable! As compensation you can quickly mount up your score, 1 for an asteroid, 3 for a magnetic one and 10 for a saucer, up to an amazing 9,999!

You can key in the champion's name via your Philips keyboard onto the screen. Challenge your friends. It's explosive!

VIDEO-CROSSWORD 2!

Well, did you spot it? Lots of Club members did, and wasted no time writing to tell us! Two clues were missed out when we printed Prize Competition Number 8, namely 8 and 26 across.

As the closing date was given as 31st August, what we'll do is give the prize of the videopac of your choice to the first entry out of the hat by that date with all the clues correct except those two. And we're running it again to give a chance to all those who'd like to try it with all the clues in place! Once again the winning entry—first correct one out of the hat as usual—will win the videopac of his or her choice. This time the closing date will be 15th October 1983. Make sure your envelope for this competition is clearly marked Prize Competition Number 9, and send it with your name, address and membership number to Philips Videogames Club, 365a Station Road, Harrow, Middlesex HA1 2XP.

"I have only just purchased Videopac 40 'Four in One Row' and I think it's 'FANTASTIC'. I am always Pacifycat and can already beat the computer in the Microcat 1 game. I have not painted this picture of Microcat because this cartridge is so good."
